**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/613,584	<b>Applicant(s)</b> WAUGH ET AL.	
	<b>Examiner</b> Carlos A. Azpuru	<b>Art Unit</b> 1615	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Receipt is acknowledged of the amendment filed 04/23/2007.

The rejection under 35 USC 112, first paragraph is hereby withdrawn.

The rejections under the judicially created doctrine of obviousness type double patenting are maintained in this action.

After a review of the reference and amended claims, the following rejection is maintained in this action:

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Iyer et al (US Patent 6,726,923).

Art Unit: 1615

Iyer et al disclose a drug delivery system comprising a polymer matrix (see col. 3, lines 35 –67; col. 4, lines 1-67. Chitsan of molecular weight up to  $5 \times 10$  is specifically recited at col. 5 lines 1-4. Rapamycin is disclosed as the preferred drug at col. 7, lines 20-34. The rapamycin may be immobilized on the surface of the polymer which constitutes an “attachment to the polymer backbone” (see col. 10, line 47). Also see claims 1-36. The instant claims are clearly anticipated by Iyer et al.

### ***Response to Arguments***

Applicant's arguments filed 04/23/2007 have been fully considered but they are not persuasive.

While it is appreciated that the limitations of claim 6 had not been rejected in the prior action, a review of the reference shows that attachment to the polymer backbone is disclosed by Iyer et al. As such, the rejection is maintained in view of the newly amended claims.
